

Intqlabs is a leading research company that focuses on quantum computing, reverse computing, radio and magnetic analysis platforms, cyber security and semiconductor chip design. It has filed several patents around the world via an experienced team of researchers and scientist that work to generate, test and deliver novel platforms. Intqlabs platforms are targeted towards manufacturers to assist in establishment of seamless supply chain and facilitate product integration at various levels of an assembly line. Our portfolio is available for licensing and joint manufacturing for hardware manufacturers along with technology transfer options. Our culture is to solely focus on research, quality assurance and training of customers so that we can concentrate on our core competency while the customer can use our technology to create in-numerous applications and support systems.
